Erikson Institute, one of the nation’s leading graduate schools in child development, invites applications for an open rank tenure track faculty position (assistant, associate, or full professor) to begin fall 2018. Applicants should have an earned doctorate in Early Education, Child Development, or related field with specialization in one of the STEM fields (science, technology, engineering, or math). Applicants are sought for teaching, scholarship, and leading the early STEM concentration in the graduate program.

We seek faculty whose scholarship recognizes the complexities of development in caregiving and educational relationships given particular cultural, social and economic contexts and historical circumstances that shape both opportunities and challenges for children and families. Background with teaching and research experience in the early STEM fields is required.

Responsibilities of tenure track faculty include teaching graduate courses (on campus and/or online); advising master’s and doctoral students; developing an active program of funded research with publications; taking leadership role in program development; engagement with the public at local, state, and regional levels; and contributing expertise to the Institute’s mission and initiatives in early childhood programs and policies.

Applications are being accepted immediately. The search will continue until the position is filled. Candidates are asked to submit online in 1 PDF: a letter of application, statement of professional goals discussing teaching interests, curriculum vitae, and names of three references who can speak to the quality of teaching and scholarship. Submit materials to: Pamela Epley, The Co-chair of the Faculty Search Committee, at csimons@erikson.edu.

About Erikson
Founded in 1966 with a strong commitment to social justice, Erikson Institute is the nation’s premier graduate school in child development. We improve the lives of young children and families through graduate and continuing education in child development, social work, and early childhood education, as well as through community programs and policy research. Erikson is accredited by the Higher Learning Commission. We offer a variety of employee benefits, including excellent health and dental plans, life/disability insurance, transit stipend, matching retirement contributions, and more. To learn more please visit our website at www.erikson.edu.

Erikson Institute is an equal opportunity employer. We consider all applicants for employment without regard to race, color, religion, national or ethnic origin, gender, gender identity, gender expression, sexual orientation, marital status, age, disability, veteran status, or any other classes protected by federal, state, or local laws. In addition, Erikson Institute provides reasonable accommodations to qualified individuals with disabilities in accordance with the Americans With Disabilities Act and applicable state and local laws including during the application or hiring process).
